THE SCANDINAVIAN JOURNAL OF *Clinical & Laboratory Investigation*

EDITED FOR
THE SCANDINAVIAN SOCIETY
FOR CLINICAL CHEMISTRY
AND CLINICAL PHYSIOLOGY

UNIVERSITY OF HAWAII
LIBRARY

PERIODICAL

VOL. 6, 1954

Board of Editors

H. O. BANG
E. BIERRING
J. BING
E. BLEGEN
K. BRØCHNER-MORTENSEN
L. EFSKIND
R. FRISK
N. HALLMAN
O. HELVE
P. IVERSEN
B. JOSEPHSON
A. KETOMAA
F.-E. KRUSIUS
J. LEHMANN
O. J. MALM
P. A. OWREN
H. PALMER
L. RAURAMO
F. SCHØNHEYDER
T. SJÖSTRAND
S. L. SVEINSSON

CONTENTS OF VOLUME V

No. 1.

B. HOOD, G. ANGERWALL, B. ISAKSSON and G. WELIN: Studies on heparin and the lipemia clearing factor I 1
E. M. BLEGEN, H. N. HAUGEN and K. ØRNING: Does intermittency of glomerular activity occur in humans? 8
A. TELKKA, S. WAHLSTRÖM and R. KOULUMIES: Eosinophil cells in fish tapeworm (diphyllobotrium latum) carriers 15
H. N. HAUGEN: Glucose and acetone as sources of error in plasma «Creatinine» determinations 17
C.-B. LAURELL: Preliminary data on the composition and certain properties of human chylomicrons 22
G. ÖSTLING and G. TØTTERMAN: Extrinsic (P^{32}) / intrinsic (P^{31}) phosphorus clearance ratio in man 25
V. JÄÄSKELÄINEN and R. MÄKITALO: The reliability of the Scholander-Roughton method of microdetermination of the oxygen content of blood, using aerosol and saponin as the hemolytic agents 28
W. J. KAIPAINEN and G. TÖTTERMAN: On the vitamin B_{12} content in feces in cases of pernicious tape-worm anemia 33
W. T. L. OHLSSON and O. M. WILANDER: BAL-therapy in transfusion hemosiderosis 36
P. LOUS and O. SYLVEST: A comparison of three methods, utilizing different principles, for the determination of uric acid in biological fluids 40
N. TYGSTRUP, K. WINKLER, E. LUND and H. C. ENGELL: A clinical method for determination of plasma glactose in tolerance tests 43
L. ERIKSEN: A simple method for the preparation of protoporphyrin from washed erythrocytes 49
E. VARNAUSKAS and L. WERKÖ: Temporary occlusion of interatrial septal defect in man 51
U. S. VON EULER, S. HELLNER, and A PURKHOLD: Excretion of noradrenaline in urine in hypertension 54
V. FÜRST jr. and R. LANGE: Evaluation of an acetic acid—sulphuric acid method for quantitative determination of cholesterol in serum 60
B. FRIIS-HANSEN: The measurement of deutrium oxide at low concentrations by the gradient tube method 65
L. A. CARLSON and B. OLHAGEN: The electrophoretic mobility of chylomicrons in a case of essential hyperlipemia 70

Technique and pratical problems:

A. DETTKER and H. ANDUREN: A new time-saving apparatus for paper electrophoresis 74
M. U. TSAO: A power source for filter paper electrophoresis 76

Letters to the editors:

M. E. PITKÄNEN: Detection of adrenaline and noradrenaline on paper chromatograms 78
T. HEIKEL, L. BÄCKSTRÖM and M. HAKALA: Paper chromatography of uroerythrin 79
E. KVAMME and L. HELLMAN: Isolation of pyruvic and alphaketoglutaric acids from blood and tissues in the presence of C^{14}-acetate 80
S. I. RAPAPORT, K. AAS and P. A. OWREN: The coagulant activity of Russel viper venom 81
S. I. RAPAPORT, K. AAS and P. A. OWREN: The increased coaguability of plasma exposed to glass 82

No. 2.

W. J. KAIPAINEN, S. WALLÉN and G. TÖTTERMAN: On the vitamin B_{12} content in faeces 85
W. J. KAIPAINEN and S. WALLÉN: On the vitamin B_{12} content of the fish tapeworm.. 88
S. JARNUM: Cinchophen and acetylsalicylic acid in anticoagulant treatment..... 91
R. W. R. BAKER and C. PELLEGRINO: The separation and detection of serum enzymes by paper electrophoresis 94
S. HÄGBERG, P. HJELMSTRÖM and J. ADAMS-RAY: The effect of long-acting infiltration anesthesia with effocaine on the respiratory movements at rest postoperatively 102
O. P. FOSS: The urinary excretion of glutamine and glutamic acid in normals and in a group of psychiatric patients..... 107
A. CARLSTEN: On the significance of the bipolar chest lead in ECG between apex cordis and the left posterior axillary line..... 110
C. WASASTJERNA and M. SUNDBERG: Erythrophagocytosis in clotted blood..... 119
S. J. VIIKARI, P. HARJOLA and T. MAAMIES: Clinical studies on the buffer capacity of the blood..... 122
H. BEGTRUP: Citrated or oxalated blood in the determination of prothrombin by the method of Owren..... 129
A. HOLMGREN: Determination of the functional residual volume by means of the helium dilution method 131
A. HOLMGREN and K.-H. MATTSSON: A new ergometer with constant work load at varying pedalling rate 137
R. LAGERKRANTC: Endogenous CO formation and its relationship to in vivo hemolysis in connection with experimental inoculation of streptolysin and hemolytic streptococci 141
S.-B. MATTSON: A method for spirometric investigation of the upper lobe of the right lung 146
C. RUD: Technical problems in potassium-sodium determination with the Beckman spectrophotometer 149
R. GORDIN and B. KUHLBÄCK: A bed-side «prothrombin» method for use in anticoagulant therapy 155

Technique and practical problems:

L. ELDJARN and O. NYGAARD: Comments on methods in biological work with S^{35}-labeled compounds 160
Book review 168

No. 3.

O. STORSTEIN and H. TVETEN: The effect of hexamethonium bromide on the pulmonary circulation 169
F. SCHØNHEYDER, N. S. C. HEILSKOV and K. OLESEN: Isotopic studies on the mechanism of negative nitrogen balance produced by immobilization..... 178
M PERS: Reabsorption from urine in colon..... 189
T. GEILL, E. LUND, H. DAM and E. SØNDERGAARD: Studies on the efficiency of vitamin K_1 in small doses as antidote against anticoagulants of the dicoumarol type.... 203
ELSE-MARIE LINDSETH DITLEFSEN and K. F. STØA: Vitamin A and carotenoid levels in blood serum with special reference to values observed in diseases of the liver.. 210
B. BERNÉUS, A. CARLSTEN, A. HOLMGREN and S. I. SELDINGER: Percutaneous catheterization of peripheral arteries as a method for blood sampling..... 217
J. G. L. HARTHON and K. SIGROTH: Some remarks on gentisinamide and its therapeutic value 222
BIRGITTA WERNER and V. MUTT: The pancreatic response in man to the injection of highly purified secretin and of pancreozymin 228
J. BOCK: Method for quantitative determination of pepsin in gastric juice..... 237
O. WALAAS, O. LINGJÆRDE, F. LØKEN and E. HUNDEVADT: The effect of sera from schizophrenic patients on glucose utilization of the isolated rat diaphragm..... 245
G. LUNDIN and L. ÅKESSON: A new nitrogen meter model..... 250

Technique and pratcical problems:

C. LERCHE: Electrophoretic technique in bacteriology 256
K. AGNER, R. BONNICHSEN and G. HEVESY: Note on the determination of radioiron 261

Letters to the editors:

L. KALLIOMÄKI and N. KÄRKI: Bacterial phagocytosis of leukocytes in disseminated lupus erythematosus 263

No. 4.

N. HALLMAN and E. KULONEN: On the iodide oxidizing substance in the urine 265
L. KLUNGSØYR and K. F. STØA: Spectrophotometric determination of hemoglobin oxygen saturation 270
G. BIÖRCK, M. DAMGAARD-NIELSEN, K. HÆGER, H. RYD and H. B. WULFF: Box for refrigeration and rewarming in animal experimentation and human surgery 277
I. REFN and L. VESTERGAARD: The titration of heparin with protamine 284
L. SUNDBLAD: Determination of anomalous viscosity in pathological joint fluids 288
L. SUNDBLAD, N. EGELIUS and E. JONSSON: Action of hydrocortisone on the hyaluronic acid of joint fluids in rheumatoid arthritis 295
M. BORCH JØRGENSEN: A modified method for the determination of pepsinogen in urine (uropepsin) 303
R. DYBKÆR and O. SYLVEST: A method for determination of acetone in expired air — with special reference to diabetic ketosis 311
J. BERNER jr.: Calculation of the body surface area by photogrammetry 322
F. LØKEN: On the determination of creatinine in plasma by the Jaffè reaction, after adsorption to Lloyds reagent 325
B. REHELL: A rapid clinical method for the determination of calcium in serum and other biological fluids 335
M. PERS: Penicillin clearance as kidney function test, determinations with and without collection of urine 341
